

14/2/2012

Dear Sir/Madam:

I have known Philip Bateman from Bravo Charlie since 2011, since he was invited to create a professional mining video for Steinert Australia. Our Sales and Marketing team, myself included, have felt quite inspired and impressed regarding the quality and potential for the Steinert video produced by Bravo Charlie.

We initiated and have been shown by Philip the process for developing a total social media strategy (please see links on our website [www.steinert.com.au](http://www.steinert.com.au)). This has been very well received by the company globally, and we will continue to seek Philip's expertise and advice in the future for Steinert's social media and video production.

We have no hesitation in recommending Philip to future business contacts or employers and we would be happy to provide further information on request.
